Profile

Electronics Engineering graduate, a Full-stack developer, looking forward to expanding my knowledge whilst bringing value to my potential company and team.

Skills

- Web Development: HTML, CSS, JavaScript, React, TypeScript, Next.js, Styled component, Tailwind CSS.
 - Back-end: Node.js, PostgreSQL, Mongo DB.
 - Others: Jest, Cypress, GitHub, Agile Methodologies.
-

Education

- ❖ Bachelor's degree in Electronics Engineering - The Future University.
 - ❖ Full Stack Development Bootcamp - Code Your Future
 - I have learned various back-end and front-end development technologies and tools in a collaborative and mentorship environment. Also, I improved my professional skills such as teamwork, pair programming, code review, and Debugging.
-

Projects

- **MunchMaster app:** <https://restaurants-rating-app.netlify.app>
A Full stack app (Postgres, Node, React, Express) allows user to list their favourite restaurants and also add a review and pricing to allow them to quickly decide their next meal !!

- **Personal portfolio:** <https://jihad-omer.vercel.app>
A personal website lets the visitor know about me more, it includes the latest and upcoming projects I am working on. I use (React, Next.js, TypeScript, Tailwind CSS)
- **Work Experience**
- **CYF Final project, Content management system(CMS) (March 2023 - April 2023) - United Kingdom**
Website : <https://starter-kit-fhvk.onrender.com/>

Participated as full stack developer in a team of 6 in an Agile/ Scrum environment to create a CMS for an overseas charity organisation to help them to show their work to the public.

- Implemented React.JS with Ant design as a component library for the front end.
- Implemented Node.JS and PostgreSQL for the back-end and Database.

- **Self-Employed (2015 - 2020) - Sudan**

I have managed various projects in many sectors including restaurants, hospitality, and Agriculture. My role was to plan and monitor daily operations for the business.

- **Help desk Specialist - Kenana Sugar Company (2014- 2015) - Sudan**
 - I was responsible to provide technical assistance and support to end-users regarding software, hardware, and other computer-related issues.

Volunteering

- Arabic interpreter - DASH Charity, Huddersfield (March 2022 - present)
- Receptionist - DASH Charity, Huddersfield (June 2022 - present)
- Trustee - DASH Charity, Huddersfield (September 2022 - present)
